NOTE: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.

Remote or Self Contained Multideck for All Medium Temperature Applications with back loading.

The HUDSON BACK LOADER is a container type remote multideck chiller. It is specially designed for integration with cold rooms and therefore comfortable to load from the back. The HUDSON BACK LOADER is easily operated and allows displaying and storing of top-selling products in the cabinet directly on pallets and/or trolleys. Back sliding doors facilitate adding or replacing products and give merchandisers additional flexibility.

Standard

- Sturdy construction suitable for huge loads
- Alternative heights and lengths
- Plastic bumper
- Sliding back covers
- Multiplexable device
- Canopy lighting
- Double air curtain
- Wide choice of colors for the exterior and interior (RAL palette)
- Electronic temperature controller with a digital display
- Energy-saving electronically commutated fans
- Polyurethane thermal insulation CFC free.
