HUDSON XL5

This large capacity multideck cabinet provides an excellent presentation for any product put on display. Thanks to extensive options of cabinet configurations and accessories, MANHATTAN is an ideal solution for each store type and each product range.

Balanced cold air circulation between the shelves ensures the perfect preservation of merchandise. The powder-coated, zinc-plated metal (1.4 mm thickness) construction serves as a guaranty for durability.

Dual air curtains help save energy. A version of a multideck chiller with doors can be ordered for better energy efficiency or open version – for a high sales turnover.

Night blinds available for reduced energy consumption. This multideck chiller is multiplexable, can be joined into rows or form a separate island.

NOTE: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.
