Introducing the Alaska ECH freezer bunker - the perfect blend of style and efficiency. With stunning front and side displays, this bunker is a must have for any establishment looking to display better, save on energy and maintenance cost. It features a variable speed compressor for optimal performance and energy savings. The interior and exterior are constructed with high quality galvanized sheet metal, coated in PVC to meet food regulations. The entire cold circuit is made of copper, ensuring long lasting durability. The Alaska ECH boasts front and side triple glazing with internal resistance to prevent condensation, a height adjustable false bottom, LED lighting with automatic control, automatic defrosting, water evaporation and a maintenance free condenser.
