-22 - -24°C

Climatic class 3L1  
Humidity 60%  
Ambient temp +25°C  
Air speed 0,2m/sec

This low-temperature plug in commercial upright freezer ALASKA 2200 ensures the preservation of frozen foods at temperatures of -18 to -20 °C, and -22 to -24 °C. The temperature is evenly distributed throughout all the inner spaces between the shelves. Large-sized glass panels provide an outstandingly clear view of the products even from a distance. Anti-condensation foil on the internal pane reliably prevents any fogging after opening. With quite a small footprint, it offers a large merchandise display at customers' eye level. It is a convenient and cost-effective solution for any type of store. Multiplexable with other cabinets.

### Standard

- Alternative heights and lengths
- Ice lighting around the door frame Multiplexable device
- Ergonomically matched door opening handle
- The door is made of three-layer isopan with built-in heaters
- Automatic door closing system
