Ambient temp +25°C
Air speed 0,2m/sec

This low-temperature commercial upright freezer ALASKA 2200 ensures the preservation of frozen foods at temperatures of -18 to -20 °C, and -22 to -24 °C. The temperature is evenly distributed throughout all the inner spaces between the shelves. Large-sized glass panels provide an outstandingly clear view of the products even from a distance. Anti-condensation foil on the internal pane reliably prevents any fogging after opening. With quite a small footprint, it offers a large merchandise display at customers' eye level. It is a convenient and cost-effective solution for any type of store. Multiplexable with other cabinets.

Standard

- Alternative heights and lengths
- Front bumper
- Multiplexable device
- Glass doors
- Wide choice of colors for the exterior and interior (RAL pallet)
- Bimetallic / electronic thermometer
- Defrost heater
